

Thursday's NanoSpin-off

TALKS

November 28th, 17h

ONLINE by ZOOM and
PRESENTIAL
(Conference Room.
I+D Building)

Z o o m

Cátedra **SAMCA**
de Nanotecnología
Universidad Zaragoza

INMA
INSTITUTO DE NANOCIENCIA
Y MATERIALES DE ARAGÓN

Universidad
Zaragoza

TALK

"Alcyon Photonics a non-hardware hardware company"

SPEAKER

Jimena Garcia-Romeu

CEO Alcyon Photonics S.L

PRESENTER

Dr. Tetiana Slipchenko

Instituto de Ciencia de Materiales de Madrid – CSIC
Grupo de Cristales Fotónicos

Alcyon Photonics is redefining the limits of photonics by delivering cutting-edge Intellectual Property (IP) accelerating the transition from electronics to photonics. Through these IP, we are making advanced optical technology more accessible, scalable, and transformative across industries, challenging traditional hardware constraints. This journey, driven by vision and adaptability, is establishing a new kind of company – one that's set to reshape the future of connectivity and computing through agility, innovation, and groundbreaking ideas.
